

# **AMEC** – Automotive Modular Ethernet Connection

## **Perfectly Assembled Cables – Our USPs**

- Automated production line with modular transfer technology and process monitoring
- Compliance with the smallest processing tolerances
- Handling of various cable variants (STP, UTP) by using adapted housings
- Globally standardized machinery

## **Your Advantages**

- > High frequency range and high data rates
- Less mating processes due to a modular package concept (1- and 2-row housing variants with up to 8 ports) in sealed and non-sealed design
- > Automated assembly with process monitoring
- > Compact and ergonomic design

### **Technical Information**

#### **Electrical**

Return loss ≥ 11 dB, 400 MHz

up to 600 MHz

#### Mechanical

Keying efficiency  $\geq 150 \text{ N}$ Engagement force < 45 N Retention force latch  $\geq 110 \text{ N}$ Mating cycles  $\geq 25$ 

#### **Environmental**

Temperature range -40 °C up to +105 °C Qualification according to LV 214 / USCAR

Technical information according to Aptiv datasheet

### Requirements

Combination of a multi-functional and modular data transmission system up to 600 MHz and 1 Gbps in a compact design.

## **Applications**

- Electromobility
- Autonomous driving
- > ECU network connection

## **Protocols & Signals**

> Automotive Ethernet

# **MD** in a Nutshell

The C.A.S.E. megatrend describes the four essential future topics for the automotive industry: Connected, Autonomous, Shared & Service and Electric. Data plays a central role and drives the future of the automotive industry. Data is generated, transferred, merged and evaluated. We are experts in the transmission of the rapidly increasing data volumes and have developed the latest technological solutions for this future topic.

**25** 

years experience in the automotive industry

**100 %** 

automotive

Supplier of products for over 350 car models from more than 60 OEMs

Volume supplier – over 160 million products in more than 20,000 variants annually

Global production- & sales network in NAFTA, Europe and APAC

Stable ownership structure

Worldwide leading company for data transmission solutions in vehicles

Approx. 6,000 employees worldwide

Accredited in-house test laboratory
