FAKRA LC

Perfectly Assembled Cables – Our USPs

- Hybrid cable assemblies:
 Different FAKRA technologies with different Mini Coax technologies
- Assembly of different cable types such as: RTK031 and RG174
- > Special solutions
- Globally standardized machinery

Your Advantages

- > Sealed and non-sealed variants
- > 90° and 180° variants
- 13 mechanical and colored codings and one neutral coding
- > Highly automated assembly incl. process monitoring

Technical Information

Electrical

Return loss 6 GHz up to 12 dB

(VW LAH V03 825)

Mechanical

Engagement force \leq 25 N Cable retention force \geq 110 N

(depending on cable)

Dynamic load Load level 2

Environmental

Temperature range -40 °C up to +105 °C

(depending on cable)

Specification according to ROKA datasheet

Requirements

- Automotive connector system for all RF-based applications in the automotive industry
- > Component according to ISO 20860-1

Applications

- > Autonomous driving (LiDAR)
- > Rear seat entertainment
- Driver assistance system
- Surround view

Protocols & Signals

- FPD-Link
- GMSL
- AM/FM/5G
- > Bluetooth
- Wi-Fi
- , GPS
- CoaXPress

MD in a Nutshell

The C.A.S.E. megatrend describes the four essential future topics for the automotive industry: Connected, Autonomous, Shared & Service and Electric. Data plays a central role and drives the future of the automotive industry. Data is generated, transferred, merged and evaluated. We are experts in the transmission of the rapidly increasing data volumes and have developed the latest technological solutions for this future topic.

25

years experience in the automotive industry

100 %

automotive

Supplier of products for over 350 car models from more than 60 OEMs

Volume supplier – over 160 million products in more than 20,000 variants annually

Global production- & sales network in NAFTA, Europe and APAC

Stable ownership structure

Worldwide leading company for data transmission solutions in vehicles

Approx. 6,000 employees worldwide

Accredited in-house test laboratory
